

Table Summarizing Responsibilities in Source Protection Plan

Page # in Draft Source Protection Plan	Threat #	Threat	Part IV - RMP	Part IV - Prohibition	Part IV - Restricted Land Use	Land Use Planning	Prescribed Instrument	Education and Outreach	Incentives	Research	Other	Strategic Actions
			Implementing Body (unless otherwise noted)			The municipality responsible for water supply and treatment	Municipalities with land use planning responsibility	Provincial Ministries	Municipalities responsible for water and SPAs (some exceptions)	Province and SPA (some exceptions)	Provincial Ministries	As noted below
47	1a	The establishment, operation or maintenance of a waste disposal site - hauled sewage.					x - existing and future (MOE)			x - future (MOE)	x - existing (MOE)	x - MOE + municipalities
49	1b	The establishment, operation or maintenance of a waste disposal site - waste disposal sites.				x - future	x - existing and future (MOE)	x - existing	x - existing (municipality responsible for waste management)	x - existing (municipalities)		x - MOE
51	1c	The establishment, operation or maintenance of a waste disposal site - mine tailings.					x - existing and future (MOE)					
53	2a	The establishment, operation or maintenance of a system that collects, stores, transmits, treats or disposes of sewage - stormwater.				x - future	x - existing and future (MOE)	x - existing	x - existing	x - future (MOE)	x - future (MOE)	x - municipalities
57	2b	The establishment, operation or maintenance of a system that collects, stores, transmits, treats or disposes of sewage - sewage treatment facilities.				x - future	x - existing and future (MOE)	x - existing	x - existing			x - municipalities
61	2c	The establishment, operation or maintenance of a system that collects, stores, transmits, treats or disposes of sewage - septic.				x - future	x - existing and future (MOE)	x - existing	x - existing		x - municipalities	x - municipalities
65	2c (ICA)	Issue Contributing Area: Nitrate for Georgian Sands and Lafontaine (Threat #3c: on-site sewage systems).				x - future	x - (existing and future) MOE				x - existing and future (municipalities)	
66	2d	The establishment, operation or maintenance of a system that collects, stores, transmits, treats or disposes of sewage - industrial effluent.				x - future	x - existing and future (MOE)	x - existing	x - existing			
69	3	The application of agricultural source material to land.	x - existing	x - future	x - future			x - existing (*OSCIA)	x - existing			
72	3/4 (ICA)	Issue Contributing Area: Georgian Sands and Lafontaine (Threat #3 and 4)	x - existing	x - future	x - future	x - future						
74	4	The storage of agricultural source material.		x - future		x - future		x - existing (*OSCIA)	x - existing			
76	5	The management of agricultural source material.										
76	6	The application of non-agricultural source material to land.					x - existing and future (MOE + OMAFRA)	x - existing (*OSCIA)	x - existing	x - existing (MOE/OMAFRA)	x - existing (MOE)	x - municipalities
79	6/7 ICA	Issue Contribution Area: Nitrate for Georgian Sands and Lafontaine (Threat # 6 and 7)				x - future	x - MOE + OMAFRA					
81	7	The handling and storage of non-agricultural source material.				x - future	x - existing and future (MOE + OMAFRA)	x - existing (*OSCIA)	x - existing			
83	8	The application of commercial fertilizer to land.	x - existing		x - future			x - existing (*OSCIA)				

Table Summarizing Responsibilities in Source Protection Plan
